# Mahoneys Reserve Pavilion Redevelopment

**Frequently Asked Questions**

Your questions answered on the Mahoney's Reserve pavilion redevelopment.

**Q: Why are these works needed?**

The northern pavilion at Mahoney's Reserve is ageing and has reached the end of its useful life.

The scout hall is also ageing and will require more building works in the future. (to be removed subject to Scouts support to consolidate their building).

The soccer pavilion does not meet functional requirements (i.e. inadequate facilities particularly for female participation).

**Q: How will this redevelopment benefit the community?**

Redevelopment of the pavilion will bring immense benefits to the local community by offering modern facilities that meet the needs of current and future users.

The pavilion will be available for community use when not used by the sporting tenants.

**Q. How many pavilions are you building?**

There are currently two pavilions and one scout hall at Mahoney's Reserve. We would like your feedback on Council combining these into one new pavilion instead of keeping the three buildings.

**Q. Will there be a loss of car parks?**

We are consulting with the community about this project early in the process. Designs have not been drawn up at this stage so we can't advise on any impact to car parks. We do understand that car parking is critical for users of the park and consideration will be given to ensure space for parking.

## Design features

### Q: What features does the redevelopment include?

The design phase has not commenced. Like most pavilions, we anticipate features will include (but not be limited to) change rooms / amenities, a multi-purpose room, an umpires' room, public toilets, a kitchen, a first aid room, storage, and suitable space to accommodate activities such as badminton and table tennis.

## Project Timeline

### Q: What is the timeframe for the project?

There will be two stages of consultation from early 2022 to mid 2022. Construction is anticipated to commence in the 2023/24 financial year, subject to a range of factors including pandemic restrictions.
